

REMARKS

Claims 1-29 remain in this application. In this response no amendments to the claims have been made.

All of the claims have been rejected on the ground of non-statutory obviousness-type double patenting as being unpatentable over claims 1-29 of US Patent 6,462,249. All of the claims have also been rejected on the ground of non-statutory obviousness-type double patenting as being unpatentable over claims 1-29 of US Patent 6,660,900. In view of the Terminal Disclaimer filed concurrently filed herewith, applicants respectfully traverse these rejections.

Both US Patent Nos. 6,462,249 and 6,660,900 are owned by the Parsons Corporation, the Assignee of the present application. Accordingly, the filing of the Terminal Disclaimer herewith this response is believed sufficient to make the rejections based upon non-statutory obviousness-type double patenting as moot. Accordingly, applicants respectfully request allowance of all claims in the present application.

Respectfully submitted,

SHELDON MAK ROSE & ANDERSON
